Listed as follows:

England	Area Health Authorities
Wales	Area Health Authorities
Scotland	Health Boards
Northern Ireland	Health and Social Service Boards

Within each Area Health Authority etc. any general papers will be listed first, alphabetically by author, followed by papers on individual health centres listed in order of their dates of opening. If there is more than one paper on any health centre, the papers on that centre are listed alphabetically by author. These are mainly straightforward descriptions of health centres, their staff and services, often with photos and plans.

<u>ADDENDUM: ADDITIONAL MATERIAL PUBLISHED BEFORE 1975</u>	15
--	----

In the case of the following sections of the original bibliography, no publications in 1975 were found for inclusion.

- B. STATUTES
- I. GENERAL SURVEYS OF HEALTH CENTRES
- J. HEALTH CENTRES AND NEW TOWN PLANNING
- Q. SCHEMES FOR HEALTH CENTRE SERVICES AND ORGANISATION
- S. HEALTH CENTRES PLANNED BUT NOT BUILT

A. INTRODUCTION

This supplement¹ lists printed material concerned with health centres in the United Kingdom published in 1975. The references are almost entirely limited to those published in the United Kingdom, they do not include material from newspapers and similar sources.

The term 'health centres' is taken to include the following (i) statutory health centres i.e. centres built under the provision of the relevant statutes in the United Kingdom (see Section B of the original bibliography (Baker and Bevan 1973) and the supplement (Baker, Bevan and Harvey 1974) for details of these); and (ii) certain health centres neither built under statutory provision nor owned by general practitioners but built and originally owned by charitable or educational bodies - for example the Harlow Health Centres, Essex (Nuffield Provincial Hospitals Trust).

Conventions used in the Bibliography

Most of the references in the bibliography are from journals and the Harvard system (name of author, year of publication, title of journal underlined, volume number underlined and pages) has been followed in citing these. However, in several journals this information would not be sufficient to find the reference and so in these cases details such as the month of publication or the number of the copy in the year, have been added as necessary.

The prefix 'G.B.' (for Great Britain) has been used to distinguish all official material, i.e. published by H.M.S.O. or produced by government departments, in the United Kingdom. This convention makes such material easier to identify in an alphabetical arrangement as the names of organisations and ministries are liable to change (e.g. the former Ministry of Health is now the Department of Health and Social Security).

¹ The original bibliography, Baker and Bevan, 1973 (published by Update Publications Ltd.) covered material up to the end of 1972 and the supplements for 1973 and 1974 (Baker, Bevan and Harvey, published by the Health Services Research Unit) covered the years 1973 and 1974 respectively.

The cross-referencing system

The bibliography has been divided into sections. In a number of instances, one reference could be logically placed in more than one section. This is particularly the case in Section P, Studies Carried Out in Health Centres, as most studies relate to a named centre or centres and, therefore, could also have been listed under the names of the centres concerned in Section R, Descriptions of Individual Health Centres. Instead of listing such references in two or more places, a system of cross-referencing is used. For example, paper P, 6 describes a study carried out at Clydebank Health Centre. In brackets underneath this reference is shown the place where P, 6 could also have been listed - in this case in Section R, Greater Glasgow, Clydebank. And at the relevant place in Section R (i.e. Greater Glasgow, Clydebank) reference P, 6 is shown as one which also applies there.

Acknowledgements

Once again our thanks are due to a number of people for their help in preparing this bibliography, in particular we are most grateful to Mr. R. Wynde and Mr. L. Fisher of the Department of Health and Social Security, to Mrs. Chambers of the Scottish Home and Health Department, Mr. F. Hind of the Welsh Office and to Miss M.D. Mayne of the Department of Health and Social Services, Northern Ireland for providing information on official documents and Mrs. M.V. Rodgers, Librarian of the Kent Postgraduate Medical Centre at Canterbury, and to Janita Watson and Yvonne Procter for producing this supplement.

C. SIGNIFICANT CIRCULARS

Issued by the Department of Health and Social Security

1. DS 85/75 Review of health services and resources:
planning tasks for 1975/6
2. DS 146/75;DT 26/75 Health capital programme:
1975/6 allocations
3. HSC(1S)163; WHSC(1S)153 Remuneration of salaried dental
practitioners practising at
health centres
4. HSC(1S)207 Closure or change of use of health buildings

Issued by the Scottish Home and Health Department

5. NHS Circular No. 1975 (GEN)54 Management below district
level.

D. GOVERNMENT REPORTS AND OTHER OFFICIAL PRINTED MATERIAL CONCERNING HEALTH CENTRES

1. G.B. Department of Health and Social Security (1975) Accident and Emergency Services: Government Observations on the Fourth Report of the Employment and Social Service Sub-Committee of the Expenditure Committee. London: H.M.S.O. Cmd. 5886.
2. G.B. Department of Health and Social Security (1975) Annual Report for 1974. London: H.M.S.O. Cmd. 6150.
3. G.B. Scottish Home and Health Department (1975) Report for 1974. Edinburgh: H.M.S.O. Cmd. 6052.
