Table 2 from Stöber (1998)

The Frost Multidimensional Perfectionism Scale (FMPS). Items, Subscales, Item-Total Correlations, and Factor Loadings of the Four-Factor Solution with Varimax Rotation

| | | | | Factor | | | | |
|---|----------|--------------------------|-----|--------|-----|----|--|--|
| Item number and wording | Subscale | <u>r</u> it ^a | I | II | III | IV | | |
| 9. If I fail at work/school, I am a failure as a person. | CM | .54 | .69 | | | | | |
| 10. I should be upset if I make a mistake. | CM | .29 | .43 | | | | | |
| 13. If someone does a task at work/school better than I, then I feel like I failed the whole task | CM | .56 | .59 | | .46 | | | |
| 14. If I fail partly, it is as bad as being a complete failure. | CM | .56 | .55 | | .35 | | | |
| 18. I hate being less than the best at things. | CM | .56 | .43 | | .60 | | | |
| 21. People will probably think less of me if I make a mistake. | CM | .61 | .67 | | | | | |
| 23. If I do not as well as other people, it means I am an inferior human being | CM | .54 | .69 | | | | | |
| 25. If I do not do well all the time, people will not respect me. | CM | .61 | .70 | | | | | |
| 34. The fewer mistakes I make, the more people will like me. | CM | .52 | .71 | | | | | |
| 17. Even when I do something very carefully, I often feel that it is not quite right. | D | .41 | .56 | | | | | |
| 28. I usually have doubts about the simple everyday things I do. | D | .50 | .63 | | | | | |
| 32. I tend to get behind in my work because I repeat things over and over. | D | .38 | .62 | | | | | |
| 33. It takes me a long time to do something "right." | D | .29 | .56 | | | | | |
| 1. My parents set very high standards for me. | PE | .45 | | .63 | .36 | | | |
| 11. My parents wanted me to do the best at everything. | PE | .58 | | .69 | .40 | | | |
| 15. Only outstanding performance is good enough in my family. | PE | .60 | | .74 | .30 | | | |
| 20. My parents have expected excellence from me. | PE | .61 | | .83 | .36 | | | |
| 26. My parents have always had higher expectations for my future than I have. | PE | .34 | | .68 | | | | |

| (Table 2, continued) | (Table 2. | continued) |
|----------------------|-----------|------------|
|----------------------|-----------|------------|

| 3. As a child, I was punished for doing things less than perfect. | PC | .48 | | .69 | | |
|--|-------------------|------|------|------|------|-----|
| 5. My parents never tried to understand my mistakes. | PC | .35 | | .52 | | |
| 22. I never felt like I could meet my parents' expectations. | PC | .53 | | .81 | | |
| 35. I never felt like I could meet my parents' standards. | PC | .47 | | .75 | | |
| 4. If I do not set the highest standards for myself, I am likely to end up a second-rate person. | PS | .49 | .43 | .75 | .43 | |
| 6. It is important to me that I am thoroughly competent in everything I do. | PS | .38 | | | .53 | |
| 12. I set higher goals than most people. | PS | .48 | | | .78 | |
| 16. I am very good at focusing my efforts on attaining a goal. | PS | 15 | 39 | | .38 | |
| 19. I have extremely high goals. | PS | .54 | | | .75 | |
| 24. Other people seem to accept lower standards than I do. | PS | .42 | | | .66 | |
| 30. I expect higher performance in my daily tasks than most people. | PS | .51 | | | .63 | |
| 2. Organization is very important to me. | O | _ | | | | .67 |
| 7. I am a neat person. | O | _ | | | | .81 |
| 8. I try to be an organized person. | O | _ | | | | .82 |
| 27. I try to be a neat person. | O | _ | | | | .67 |
| 29. Neatness is very important to me. | O | _ | | | | .83 |
| 31. I am an organized person. | O | _ | | | | .77 |
| | O – O – O – | | 9.5 | 7.3 | | |
| | Eiger | 8.45 | 4.02 | 3.34 | 2.57 | |

Note. N = 243. CM = Concern over Mistakes, D = Doubts about actions, PE = Parental Expectations, PC = Parental Criticism, PS = Personal Standards, O = Organization. Items taken from Frost, Marten, Lahart, and Rosenblate, 1990, Cognitive Therapy and Research, 14, 449–568. Items are presented with a 5-point response scale from 1 (strongly disagree) to 5 (strongly agree). Only factor loadings with absolute values $\geq .30$ are displayed.

^aCorrected item-total correlation (total score does not include Organization).

Table 3 from Stöber (1998)

Correlations of the FMPS Scales. Original Formulations and New Aggregates

| Scale | Description | Scale | | | | | | | | | |
|------------|-----------------------|--------|--------|--------|--------|--------|--------|------------------|-------|--------|--|
| | | CM | D | CMD | PE | PC | PEC | PS | О | P | |
| CM | Concern over Mistakes | | | | | | | | | .83*** | |
| D | Doubts about actions | .58*** | | | | | | | | .60*** | |
| CMD | CM + D | .96*** | .79*** | | | | | | | .83*** | |
| PE | Parental Expectations | .31*** | .16* | .29*** | | | | | | .69*** | |
| PC | Parental Criticism | .34*** | .26*** | .34*** | .61*** | | | | | .64*** | |
| PEC | PE + PC | .36*** | .22*** | .35*** | .92*** | .87*** | | | | .74*** | |
| PS | Personal Standards | .48*** | .23*** | .44*** | .37*** | .16* | .31*** | | | .68*** | |
| O | Organization | .11 | .00 | .08 | 03 | .01 | 01 | .24*** | | .11 | |
| <u>M</u> | | 20.35 | 10.23 | 30.58 | 11.59 | 8.53 | 20.12 | 21.25 | 20.92 | 71.94 | |
| <u>SD</u> | | 6.98 | 3.31 | 9.31 | 4.86 | 3.96 | 7.93 | 5.25 | 4.85 | 17.23 | |
| Cronbach's | alpha | .87 | .73 | .88 | .88 | .81 | .89 | .78 ^a | .86 | .90 | |

Note. N = 243. FMPS = Frost Multidimensional Perfectionism Scale; CM = Concern over Mistakes, D = Doubts about actions, CMD = Concern over Mistakes and Doubts (sum of CM and D), PE = Parental Expectations, PC = Parental Criticism, PEC = Parental Expectations and Criticism (sum of PE and PC), PS = Personal Standards, O = Organization; P = overall perfectionism (total score does not include Organization).
