**Notes:**
- SETTLEMENT: A site where human activity is evident, likely for residential or communal purposes.
- INDUSTRY: An area dedicated to specific industrial activities.
- FIELD SYSTEM: A network of fields and boundaries, often used in agricultural practices.
- POT. BUILDING: Potentially a building structure, possibly with a ceremonial or religious function.
- ENCLOSURE: A demarcated area, often used for enclosing fields or settlements.
- FEATURES: Various features such as ditches, pits, or enclosures that provide context to the site occupation.
- DITCHES: Linear features that may indicate boundaries or defensive structures.
- DITCHES (S): Specified ditches or similar features.
- BUILDING(S): Structures or buildings within the site.
