In the U.K., after the toppling of Edward Colston's statue by demonstrators, another demonstration was held with the request of dismantling the statue of Cecil John Rhodes at Oriel via Getty Images was a slave trader of the late 17th century who played a major role in the development of South Africa. The statue of Rhodes is located in the University of Oxford's Oriel College, which named its college after him.

The Black Lives Matter movement is a significant and messy political movement that has seen a surge in activity in the U.K., particularly in response to the killing of George Floyd by a police officer in Minneapolis in May 2020. The movement has been criticized for its radical demands and for its impact on social cohesion, but it has also been praised for its ability to mobilize a wide range of people from different backgrounds.

The movement has become a focal point for debates about race and policing in the U.K., and it has raised questions about the nature of democracy and the role of the state in addressing social inequalities. The movement has also sparked a broader conversation about the history and legacy of slavery in the country, and about the role of institutions such as universities in perpetuating racial inequality.

The movement has also raised questions about the role of universities in promoting diversity and equality. The University of Oxford, for example, has been criticized for its historical ties to slavery and colonialism, and for its failure to address these issues.

The Black Lives Matter movement has also been criticized for its radical demands and for its impact on social cohesion. Some opponents of the movement have argued that it is a threat to social stability and to the rule of law, while others have argued that it is a necessary response to systemic racism.

The movement has also sparked a broader conversation about the history of violence in the U.K., and about the role of institutions such as universities in perpetuating racial inequality.
