SPATIAL ACCESS, NEED AND EQUITY

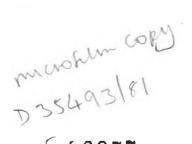

AN ANALYSIS OF THE ACCESSIBILITY OF PRIMARY HEALTH FACILITIES FOR THE ELDERLY IN PARTS OF EAST KENT

Sarah Elizabeth Curtis

Urban and Regional Studies Unit, University of Kent at Canterbury

1st September 1980

APPENDIX 2

FIGURES

CHAPTER 1

÷.

A basic classification of services

Distribution system Type

- 1 From many origins to few destinations; single or multiple-purpose journey
- From few origins to many 2 destinations; singlepurpose journey
- From few origins to many 3 destinations; servicing several destinations on a single journey
- 4 Few central points which serve areas, linkages may be by physical transmission of goods or services, or by information networks including mail, telephone, radio or television

Examples of services

- Hospitals 1
- 2 Schools
- Libraries
- 3 4 Clinics
- , 5 6 Welfare offices
- Voting areas
- 1 Fire stations
- 2 Police stations
- Garbage collection 1
- 2 Mail delivery and collection
- Police surveillance 3
- 4 Snow removal
- Taxation units 1
- 2 Jurisdictional area
- Pollution control 3
- 4 Planning districts

Introduction

I am from the University of Kent at Canterbury and I am carrying out a study of the views of the public on how easy it is to get to a doctor if you need one. If you would not mind answering some questions for me, I would be very interested to hear your views.

All the information that I am collecting is anonymous, I do not need to record your name, however, it would help me to organize my information if you would answer one or two general questions about yourself first of all.

- Where do you live? (Is this where you live?) Is that where you live all the time? How long have you lived there?
- 2) Are you registered with an N.H.S. doctor? If no: Do you have a regular doctor with a private practice? If no regular doctor: Where would you go if you needed to see a doctor?
- 3) Do you drive a car? If yes: Is it your own car? If yes: Is the car always there for you to use whenever you need it? If no: If you need to get somewhere by car is there anyone who can give you a lift?
- 4) Do you have a telephone in your home? If no: Is there one nearby which you can use?
- 5) How many people are there in your household including yourself? If more than 1: Are any of the people in your household over 65 years old? If yes: How many?
- 6) Which of these marital status groupings do you belong to? single widowed separated married • divorced
- 7) What is your job? If 'housewife': What is your husband's job? If unemployed: What was your last job? or retired:

Are you/ishe self employed or working for a firm? How many other people work there? (More or less than 25) Have you/has he had special training for the job? Do you/does he have to supervise other people at work?

If farmer: Do you/does he employ other people on the farm?

If working: Where do you go to work? How far is that from your home? How long does it take to get to work? 8) Which of these age groupings do you belong to? 0-15 21-30 41-50 61-70 81+ 16-20 31-40 51-60 71-80

Now can you tell me about the place where you live/this area?

- 9) Here is a list of everyday facilities, for each one, can you tell me: a) Where is it located?
 - b) How far is it from your home?
 - c) How long does it take you to get there?
- i. Where you/your wife go to do the weekly shopping;
- ii. Your nearest Post Office;
- iii. Your nearest dispensing chemist;
- iv. Your nearest clinic; (specify which type of clinic if applicable)
- v. Your nearest hospital casualty department.

Now can you tell me about getting to your doctor. (If respondent has no regular doctor, start from question 14 with suitable adjustments to phraseology)

- 10) First; Where is your doctor's surgery?
- 11) Is that the nearest doctor's surgery to your home?
- 12) Do you usually visit the surgery to see your doctor, or does your doctor generally come to your home if you need to see him?

Why is that?

- 13) If you are going to see a doctor, do you usually go to that surgery or do you see a doctor somewhere else? If somewhere else: Where is that? Why do you go there?
- 14) When did you last visit your doctor? Was that for yourself or for someone else? Would you tell me why you decided to go to the doctor? (Was it because of an accident or sudden illness, or for something you had had for some time?) If not an emergency: Was that the first time that you had been to the doctor about that?
- 15) If has visited the doctor within the last year: About how many times have you been to the doctor since this time last year? About how many times has the doctor called at your home since this time last year?
- 16) If you are going to see the doctor at the surgery, how do you travel there? own car someone else's car (including spouse's if it is taken to work) bus train taxi on foot other

- 17) How long does it take to get there? About how long does the whole trip take, allowing for getting to and from the surgery and seeing your doctor?
- 18) If using public transport; How much does the return trip cost?
- 19) If you are going to see the doctor at the surgery, do you usually have to make a special journey to get there, or do you call at the doctor's while you are on the way home from work, or out doing the shopping or something? How far is your doctor's surgery from where you work/do your shopping?
- 20) Does your doctor have an appointment system? Do you think that is/would be a good idea?
- 21) If access to a phone: Do you ever consult your doctor over the telephone?
- 22) Why did you choose your particular doctor?
- 23) Would you like to have a doctor's surgery somewhere else, or are you happy with it where it is?
- 24) On the whole, do you think that it is reasonably easy to get to a doctor if you need one, or do you find it difficult?

APPENDIX 3 B FIRST PHASE INTERVIEW SCHEDULE

Interview schedule : Access to Primary Health Care

Introduction

I am from the University of Kent at Canterbury and I am carrying out a study of the views of the public on how people get to health services if they need them. If you would not mind answering some questions for me, I would be very interested to hear your views.

All the information I am collecting is anonymous, I do not need to record your name, however, it would help me to organise my information if you would answer one or two general questions about yourself first of all.

1) Where do you live.....

Is that where you live all the time? all the time.....not permanent..... How long have you lived there?....

2) Are you registered with a NHS doctor? Yes.....No.....

<u>If no</u>: Do you have a regular doctor? Yes.....No.....

If no regular doctor: Where would you go if you needed to see a doctor?

3) Do you drive a car? Yes.....No.....

If yes: Is the car always there for you to use whenever you need it?

Yes.....No.....

<u>If no</u>: If you need to get somewhere by car is there anyone who can give you a lift? Yes.....No.....

Do you use the special minibus service? Yes.....No.....
4) Do you have a telephone in your home? Yes.....No.....
<u>If no</u>: Is there one nearby which you can use? Yes.....No.....
5) How many people are there in your household including yourself? Alone.....

<u>If 1</u>: Are any of the people in your household over 65 years old? Yes.....No.....

If Yes: How many?

- 6) Would you mind telling me whether you are married.....single.....
 - or widowed?....

| | | | , | |
|--|---|----------------------------|-------------------------|--|
| 7) | Are you working or retired? | WorkingRetir | red | |
| | What is/what was your last job? | | • • • • • • • • • • • | |
| | (<u>if housewife</u> : What is/what was your | husband's job? | | |
| 'Is that the job you/he had been doing for most of your(his) working | | | | |
| | | Yes | .No | |
| | Self employed/working for a firm | self employedempl | loyee | |
| | How many others worked there? | | | |
| | What did (do) you (he) actually do? | | | |
| | <u>If retired</u> : Do you have a pension fr | rom the job in addition to | o the State pension? | |
| | | YesNo | · | |
| | If working: Where is your work place | 2? | •••••••••• | |
| | How do you get there? | | • • • • • • • • • • • • | |
| | How long does that take? | •••••• | | |
| 8) | Would you mind telling me how old yo | ou are? | years | |

Now I would like to ask you some questions about the services in your area:

9)

| | Place | Is that the one you use/ Do you go there | How would you get there from home | does/would it take to get there | is the return | Would you make a special journey to go there; or go while out shop- ing or something |
|---|-------|--|---|---------------------------------------|------------------|---|
| a) | | | | | | |
| Where do you go for the weekly shopping? | | | | | | |
| b) Where is your nearest Post Office? | | | | | | |
| c) Where is your nearest dispensing chemist? | | | | | | |
| d) Where is your doctor's surgery? | | | | | | |
| e) Where is your nearest chiropody clinic? | | | | | | |
| f) Where is your nearest hospital outpatient clinic? | | | | | | |
| g) Where is your nearest hospital casualty unit? | | | | | | |

Now I would like to ask you about how you get to see a doctor if you need one: Is you'doctor's surgery the nearest one to your home? Yes.....No..... 10) Do you usually visit the surgery to see your doctor, or does the doctor 11) generally come to your home if you need him? goes to surgery.....Dr. calls..... Why is that?.... If goes to surgery: How long do you usually have to wait at the surgery before seeing the doctor? Is there an appointment system? Yes.....No..... Is that a good idea, do you think? Yes.....No..... When did you last visit your own doctor?..... 12) Was that for yourself or for someone else? self.....someone else..... Would you tell me why you decided to go to the doctor? (Was it because of an accident or sudden illness, or for something you had had for some time? sudden illness....accident/emergency....chronic illness..... prescription....checkup....other.... 13) If has seen the doctor in the last year: Do you see the doctor regularly?or just occasionally..... If recularly: How often do you see the doctor?..... Do you ever talk to the doctor over the phone about an illness instead 14) of going to see him? Why did you choose your particular doctor?..... 15) On the whole, do you find it easy to get to the doctor's surgery and 16) the other health services or do you find it difficult? easy...... difficult.....
