Versions of Record

If this version is the version of record, it is the same as the published version available on the publisher's web site. Cite as the published version.

Author Accepted Manuscripts

If this document is identified as the Author Accepted Manuscript it is the version after peer review but before type setting, copy editing or publisher branding. Cite as Surname, Initial. (Year) 'Title of article'. To be published in **Title of Journal**, Volume and issue numbers [peer-reviewed accepted version]. Available at: DOI or URL (Accessed: date).

Enquiries

If you have questions about this document contact ResearchSupport@kent.ac.uk. Please include the URL of the record in KAR. If you believe that your, or a third party's rights have been compromised through this document please see our [Take Down policy](https://www.kent.ac.uk/guides/kar-the-kent-academic-repository#policies) (available from <https://www.kent.ac.uk/guides/kar-the-kent-academic-repository#policies>).

About Frontiers

Frontiers is more than just an open access publisher of scholarly articles: it is a pioneering approach to the world of academia, radically improving the way scholarly research is managed. The grand vision of Frontiers is a world where all people have an equal opportunity to seek, share and generate knowledge. Frontiers provides immediate and permanent online open access to all its publications, but this alone is not enough to realize our grand goals.

Frontiers journal series

The Frontiers journal series is a multi-tier and interdisciplinary set of open-access, online journals, promising a paradigm shift from the current review, selection and dissemination processes in academic publishing. All Frontiers journals are driven by researchers for researchers; therefore, they constitute a service to the scholarly community. At the same time, the *Frontiers journal series* operates on a revolutionary invention, the tiered publishing system, initially addressing specific communities of scholars, and gradually climbing up to broader public understanding, thus serving the interests of the lay society, too.

Dedication to quality

Each Frontiers article is a landmark of the highest quality, thanks to genuinely collaborative interactions between authors and review editors, who include some of the world's best academicians. Research must be certified by peers before entering a stream of knowledge that may eventually reach the public - and shape society; therefore, Frontiers only applies the most rigorous and unbiased reviews. Frontiers revolutionizes research publishing by freely delivering the most outstanding research, evaluated with no bias from both the academic and social point of view. By applying the most advanced information technologies, Frontiers is catapulting scholarly publishing into a new generation.

What are Frontiers Research Topics?

Frontiers Research Topics are very popular trademarks of the *Frontiers journals series*: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area.

Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers editorial office: frontiersin.org/about/contact

Traditional and up-to-date genomic insights into domestic animal diversity

Topic editors

Johann Sölkner — University of Natural Resources and Life Sciences Vienna, Austria

Michael N. Romanov — University of Kent, United Kingdom

Natalia A. Zinovieva — L.K. Ernst Federal Science Center for Animal Husbandry (RAS), Russia

Steffen Weigend — Institute of Farm Animal Genetics, Friedrich Loeffler Institute (FLI), Germany

Klaus Wimmers — Research Institute for Farm Animal Biology (FBN), Germany

Citation

Sölkner, J., Romanov, M. N., Zinovieva, N. A., Weigend, S., Wimmers, K., eds. (2023).

Traditional and up-to-date genomic insights into domestic animal diversity.

Lausanne: Frontiers Media SA. doi: 10.3389/978-2-83251-337-8

Table of contents

- 05 **Editorial: Traditional and up-to-date genomic insights into domestic animal diversity**
Michael N. Romanov, Johann Sölkner, Natalia A. Zinovieva, Klaus Wimmers and Steffen Weigend
- 12 **Selection of Cashmere Fineness Functional Genes by Translatomics**
Yu Zhang, Dongyun Zhang, Yanan Xu, Yuting Qin, Ming Gu, Weidong Cai, Zhixian Bai, Xinjiang Zhang, Rui Chen, Yingang Sun, Yanzhi Wu and Zeying Wang
- 29 **Integrative Analysis of the lncRNA-Associated ceRNA Regulatory Network Response to Hypoxia in Alveolar Type II Epithelial Cells of Tibetan Pigs**
Yanan Yang, Yongqing Li, Haonan Yuan, Xuanbo Liu, Yue Ren, Caixia Gao, Ting Jiao, Yuan Cai and Shengguo Zhao
- 40 **Resequencing and Signatures of Selective Scans Point to Candidate Genetic Variants for Hair Length Traits in Long-Haired and Normal-Haired Tianzhu White Yak**
Qi Bao, Xiaoming Ma, Congjun Jia, Xiaoyun Wu, Yi Wu, Guangyao Meng, Pengjia Bao, Min Chu, Xian Guo, Chunnian Liang and Ping Yan
- 51 **Multi-Omics Reveals Different Strategies in the Immune and Metabolic Systems of High-Yielding Strains of Laying Hens**
Muhammad Arsalan Iqbal, Henry Reyer, Michael Oster, Frieder Hadlich, Nares Trakooljul, Alvaro Perdomo-Sabogal, Sonja Schmucker, Volker Stefanski, Christoph Roth, Amélia Camarinha Silva, Korinna Huber, Vera Sommerfeld, Markus Rodehutschord, Klaus Wimmers and Siriluck Ponsuksili
- 71 **Identification of *SSTR5* Gene Polymorphisms and Their Association With Growth Traits in Hulun Buir Sheep**
Xue Li, Ning Ding, Zhichao Zhang, Dehong Tian, Buying Han, Dehui Liu, Sijia Liu, Fei Tian, Dejun Fu, Xiaoliang Song and Kai Zhao
- 80 **Genome-Wide Identification and Characterization of Long Non-Coding RNAs in *Longissimus dorsi* Skeletal Muscle of Shandong Black Cattle and Luxi Cattle**
Ruili Liu, Mingxuan Han, Xianxun Liu, Kun Yu, Xuejin Bai and Yajuan Dong
- 97 **Genetics of Base Coat Colour Variations and Coat Colour-Patterns of the South African Nguni Cattle Investigated Using High-Density SNP Genotypes**
Langelihle Mbali Kunene, Farai Catherine Muchadeyi, Khanyisile Hadebe, Gábor Mészáros, Johann Sölkner, Trevor Dugmore and Edgar Farai Dzomba

- 109 **Genome-Wide Analysis of microRNAs Identifies the Lipid Metabolism Pathway to Be a Defining Factor in Adipose Tissue From Different Sheep**
Tian-Yi Liu, Hui Feng, Salsabeel Yousuf, Ling-Li Xie and Xiang-Yang Miao
- 122 **Opportunities of Genomics for the Use of Semen Cryo-Conserved in Gene Banks**
J. Kor Oldenbroek and Jack J. Windig
- 132 **High-Density Genomic Characterization of Native Croatian Sheep Breeds**
Ivana Drzaic, Ino Curik, Boris Lukic, Mario Shihabi, Meng-Hua Li, Juha Kantanen, Salvatore Mastrangelo, Elena Ciani, Johannes A. Lenstra and Vlatka Cubric-Curik
- 144 **Time-series transcriptome analysis identified differentially expressed genes in broiler chicken infected with mixed *Eimeria* species**
Minjun Kim, Yoonji Chung, Prabuddha Manjula, Dongwon Seo, Sunghyun Cho, Eunjin Cho, Thisarani Kalhari Ediriweera, Myunghwan Yu, Sunju Nam and Jun Heon Lee
- 155 **Conservation status and historical relatedness of South African communal indigenous goat populations using a genome-wide single-nucleotide polymorphism marker**
T. C. Chokoe, K. Hadebe, F. C. Muchadeyi, K. A. Nephawe, E. F. Dzomba, T. D. Mphahlele, T. C. Matelele and B. J. Mtileni
- 171 **Identification of potential miRNA-mRNA regulatory network and the key miRNAs in intramuscular and subcutaneous adipose**
Hui Feng, Tianyi Liu, Salsabeel Yousuf, Xiuxiu Zhang, Wanlong Huang, Ai Li, Lingli Xie and Xiangyang Miao
- 184 **Genetic diversity and population structure of Tongcheng pigs in China using whole-genome SNP chip**
Jiao Yuan, Xiang Zhou, Guoqiang Xu, Sanping Xu and Bang Liu
- 195 **The impact of using different ancestral reference populations in assessing crossbred population admixture and influence on performance**
Mohd A. Jaafar, Bradley J. Heins, Chad Dechow and Heather J. Huson
- 211 **An insight into the runs of homozygosity distribution and breed differentiation in Mangalitsa pigs**
Sowah Addo and Lisa Jung
- 227 **Application of next-generation sequencing for the high-resolution typing of MHC-B in Korean native chicken**
Thisarani Kalhari Ediriweera, Prabuddha Manjula, Eunjin Cho, Minjun Kim and Jun Heon Lee
- 235 **Selection signature analysis and genome-wide divergence of South African Merino breeds from their founders**
E. F. Dzomba, M. A. Van Der Nest, J. N. T. Mthembu, P Soma, M. A. Snyman, M. Chimonyo and F. C. Muchadeyi

Frontiers in Genetics

Highlights genetic and genomic inquiry relating to all domains of life

The most cited genetics and heredity journal, which advances our understanding of genes from humans to plants and other model organisms. It highlights developments in the function and variability of the genome, and the use of genomic tools.
