## Additional information

The author of this thesis has asked that this thesis be made available on an open access basis under the licence displayed. (12 Jan. 2021)

## Versions of research works

### Versions of Record

If this version is the version of record, it is the same as the published version available on the publisher's web site. Cite as the published version.

### Author Accepted Manuscripts

If this document is identified as the Author Accepted Manuscript it is the version after peer review but before type setting, copy editing or publisher branding. Cite as Surname, Initial. (Year) 'Title of article'. To be published in *Title of Journal*, Volume and issue numbers [peer-reviewed accepted version]. Available at: DOI or URL (Accessed: date).

## Enquiries

If you have questions about this document contact [ResearchSupport@kent.ac.uk](mailto:ResearchSupport@kent.ac.uk). Please include the URL of the record in KAR. If you believe that your, or a third party's rights have been compromised through this document please see our [Take Down policy](https://www.kent.ac.uk/guides/kar-the-kent-academic-repository#policies) (available from <https://www.kent.ac.uk/guides/kar-the-kent-academic-repository#policies>).

**In search of  
‘The people of La Manche’:  
A comparative study of funerary practices in  
the Transmanche region during the late  
Neolithic and Early Bronze Age  
(2500 BC – 1500 BC)**

A thesis submitted to  
The Classical and Archaeological Studies section of  
The School of European Culture and Languages

## CONTENTS

### PART 3 DATA DERIVED FROM AERIAL SURVEYS

<b>7.</b>	<b>Examining &amp; analyzing the ring ditch evidence</b>	<b>204-265</b>
<b>7.1</b>	<b>Introduction</b>	
7.1.1	A view from above.....	204
7.1.2	Factors affecting data veracity.....	205
<b>7.2</b>	<b>Density and distribution</b>	
7.2.1	The survey areas.....	211
7.2.2	Density comparisons.....	218
7.2.3	Positions in the landscape.....	219
<b>7.3</b>	<b>Population Estimates</b>	
7.3.1	Empirical models?.....	229
<b>7.4</b>	<b>Testing monument distribution patterning</b>	
7.4.1	Nearest neighbour analysis.....	231
7.4.2	Defining barrow cemeteries.....	232
7.4.3	Buffer zone analysis.....	233
<b>7.5</b>	<b>Lord of the Manor – a case study</b> .....	<b>234</b>
<b>7.6</b>	<b>Complexity in circular monument morphology</b>	
7.6.1	Types and sizes.....	248
7.6.2	Multiple circuit monuments.....	249
	A. Zone 1 Kent.....	250
	B. Zone 2 Flanders.....	251
	C. Zone 3 North-eastern France.....	252
7.6.3	Single and multi-phase constructions.....	253
<b>7.7</b>	<b>Founder monuments and cemeteries</b>	
7.7.1	Adding and altering circuits.....	258
7.7.2	Testing for the existence of barrow cemeteries.....	259
7.7.3	Network distribution?.....	260
<b>7.8</b>	<b>Summary</b>	
7.8.1	Glimpsing the bigger picture.....	264
7.8.2	Summative conclusion.....	265

**PART 4**  
**INTERPRETATIONS AND IMPLICATIONS**

<b>8.</b>	<b>In pursuit of meaning</b>	<b>268-287</b>
8.1	<b>A circular argument</b>	
8.1.1	Introduction	268
8.1.2	Excavation Evidence .....	268
8.1.3	Aerial surveys and landscape analysis.....	281
8.1.4	Summary .....	287
<b>9</b>	<b>General conclusions</b>	<b>288-291</b>
9.1	<b>Meeting the challenge</b>	
9.1.1	A Journey of discovery .....	288
	<b>Bibliography</b>	<b>292-321</b>
	<b>Appendices</b>	<b>322-431</b>
A	The trajectory of archaeological theory .....	322
B	Ötzi the Iceman.....	326
C	Screenshots from the research database .....	329
D	Aerial datasets	
	Zone 1 Kent .....	340
	Zone 2 Flanders .....	370
	Zone 3 North-eastern France .....	389
E	List of known non-Beaker burials .....	411
F	List of radiocarbon dates .....	426
G	Metal finds dated earlier than 1500 BC .....	428

## FIGURES

### Chapter 7

7.1	Indicative distribution map of circular monuments .....	205
7.2	Map of Flanders showing the aerial survey coverage.....	207
7.3	Zone 2 (France) map showing aerially detected ring ditches .....	208
7.4	Zone 1 (Kent) map of aerially detected ring ditches .....	209
7.5	Geological map of Kent overlain by a distribution plot .....	209
7.6	Zone 1 (Kent) distribution map of excavated barrows .....	210
7.7	Zone 2 (France) distribution map of excavated barrows.....	211
7.8	Zone 3 (Flanders) map of aerially detected ring ditches .....	212
7.9	Zone 3 (Flanders) distribution map of excavated barrows.....	212
7.10	Geological map of Flanders overlain by a distribution plot.....	213
7.11	Topographic map of Flanders and north-eastern France .....	213
7.12	Comparative zonal maps drawn at the same scale .....	214
7.13	Superimposition of a standard grid on each zone.....	215
7.14	Series of 25km grids comparing monument distributions .....	217
7.15	Bar graph showing monument density against grid cells .....	219
7.16	Distribution of multiple ring ditch sites in Zone 2 .....	220
7.17	Location of grid cell 8L within the Somme valley .....	220
7.18	Enlargement of grid cell 8L showing monument distribution .....	220
7.19	Contour and distribution map of the Bellifontaine valley .....	221
7.20	A relief map of the Somme valley .....	222
7.21a	Frequency of Zone 2 monuments plotted against elevation.....	223
7.21b	Frequency of Zone 3 monuments plotted against elevation.....	223
7.22	A relief map of the Maldegem cuesta.....	224
7.23	Location map of the Maldegem cuesta and Nevele-Drongen .....	224
7.24	Map showing monuments in the Nevele-Drongen area .....	225
7.25	(a-b) Comparative grid cells from Flanders.....	226
7.26	(a-b) Comparative grid cells from Kent .....	226
7.27	Ordnance survey contour map of east Kent.....	227
7.28	(a-b) Spatial proximity maps of Maldegem and Thanet .....	228
7.29	(a-b) Nearest neighbour readout screenshots.....	232
7.30	(a-b) Comparison grid cells Kent 17K and Flanders 11K .....	233
7.31	Sketch plan of the Isle of Thanet during the prehistoric period .....	234
7.32	The conjectured limits of Thanet in the second millennia BC .....	235
7.33	Map of Thanet today with the location of 'Lord of the Manor' .....	235
7.34	Screenshot of the nearest neighbour result for Thanet.....	236
7.35	A plan showing all known Lord of the Manor monuments .....	237
7.36	Map showing the extended linear cemetery on Thanet .....	237
7.37	A buffer map of the LOTM cemetery groups .....	238
7.38	(a-d) Geometric alignments of the LOTM cemetery groups .....	240
7.39	A plan of the main Lord of the Manor cemetery complex.....	241
7.40	(a-b) Phase plans of the LOTM 1 monument.....	244
7.41	Drawing of a cord decorated food vessel from LOTM 1.....	246
7.42	A complete excavation plan of LOTM 1 .....	246
7.43	An excavation plan of LOTM 2d showing internal structures .....	247
7.44	An excavation plan of LOTM 8 .....	247
7.45	Graph comparing ring ditch diameters against frequency.....	248
7.46	Graph showing single and double ring ditch diameters.....	249
7.47	Zone 1 distribution map and monument diameter bar graph.....	250
7.48	Zone 2 distribution map and monument diameter bar graph.....	251
7.49	Zone 3 distribution map and monument diameter bar graph.....	252
7.50	Bar graph showing the single and multi phase ditch ratios.....	253
7.51	Graphical representation of multi and single phase ditch ratios and their underlying geometric relationships.....	256
7.52	Bar graph showing the percentage of double ditched monuments known to be in cemetery groups .....	260

7.53	Map showing proximity of double ring ditches in east Kent .....	261
7.54	Maps of all three zones showing double ring ditch proximity.....	262

## Chapter 8

8.1	A time-lapse photograph of the pole star region of the sky .....	272
8.2	(a) The Pleiades star cluster overlain with the LOTM monuments	
	(b) The constellation of Ursa Major and the LOTM ground-plan	
	(c) The constellation of Orion and the ground plans of Oedelem Wulfsberge and Fresnes-lès-Montauban.....	278
8.3	The Nebra Sky Disk .....	280
8.4	Prints of a viewshed analysis of the Nevele-Drongen area .....	282

## TABLES

### Chapter 7

7.1	Numbers (by zone) of aerially detected circular monuments .....	211
7.2	Analysis of ring ditch distribution by area .....	214
7.3	Analysis of ring ditch density by area.....	216
7.4	Density levels compared to Avebury and Stonehenge .....	218
7.5	Monument distribution and elevations for grid cell 8L.....	220
7.6	Population estimates for each study zone based on Fleming .....	230
7.7	Population estimates for each study zone based on Green.....	230
7.8	Inter-zonal comparison based on average population estimates .....	231
7.9	Descriptions of the LOTM excavated barrows .....	240
7.10	Main phasing of LOTM 1.....	244
7.11	Double ring ditch inner to outer circumferences ratios .....	253
7.12	(A, B and C) Single-phase, double ring ditch ratios .....	254
7.13	(A, B and C) Multi-phase, double ring ditch ratios.....	256
7.14	Available radiocarbon dates for multi-ditched monuments.....	257
7.15	List of monuments groupings of two or more .....	259
