Fifth International Conference on
**Agriculture Digitalization
and Organic Production**
ADOP 2025

**Conference
Programme
and Abstracts**

**June 3–6, 2025
Barnaul, Altai Region,
Russia**

Organizer

- Altai State Agricultural University (ASAU, Barnaul, Russia)
- St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS, St. Petersburg, Russia)

Conference Chair

- Vladimir Pleshakov, ASAU
- Andrey Ronzhin, SPC RAS

Committees

Program Committee Chair

- Valentina Kundius, ASAU
- Vladimir Surovtsev, SPC RAS

Program Committee Members

- Mikhail Arkhipov, Russia
- Vladimir Belyaev, Russia
- Olga Cherepanova, Russia
- Vladimir Chernyshkov, Russia
- Lyudmila Chizhikova, Russia
- Vlado Delik, Serbia
- Vadzim Demidchuk, Belarus
- Abusupyan Dibirov, Russia
- Eduard Dyba, Belarus
- Vitaly Dzhavakhiya, Russia
- Ivan Ermolov, Russia
- Aleksandra Figurek, Cyprus
- Gombo Gantulga, Mongolia
- Oksana Glibko, Russia
- Mehmet Guzey, Turkey
- Viktor Haldyban, Belarus
- Dmitry Hort, Russia
- Larisa Ilyina, Russia
- Evgeny Ivashko, Russia
- Evgeny Khrustalev, Russia
- Vladimir Klybik, Belarus
- Alyona Kodolova, Russia
- Sergey Kosogor, Russia
- Valentina Kundius, Russia
- Georgy Laptev, Russia
- Nikolay Lepeshkin, Belarus
- Francisco Mas, Spain
- Roman Meshcheryakov, Russia
- Vadim Mikulski, Belarus
- Murtuzali Murtuzaliev, Russia
- Roman Nekrasov, Russia
- Konstantin Ostrenko, Russia
- Adalat Pashayev, Azerbaijan
- Francesco Pieri, Italy
- Mirko Rakovic, Serbia
- Elena Semenova, Russia

- Mikhail Tatur, Belarus
- Alexander Tristanov, Russia
- Daria Tyurina, Russia
- Noah Velasquez, Mexico
- Elena Yildirim, Russia
- Anton Yurin, Belarus

Organizing Committee Co-Chairs

- Andrey Smyshlyaev, ASAU
- Alyona Viktorova, SPC RAS

Organizing Committee Members

- Marina Astapova, SPC RAS
- Olga Cherepanova, ASAU
- Ekaterina Cherskikh, SPC RAS
- Natalia Dormidontova, SPC RAS
- Inna Fedulova, ASAU
- Ildar Kagiroy, SPC RAS
- Oksana Kakaeva, ASAU
- Dmitriy Levonevskiy, SPC RAS
- Dmitry Marin, ASAU
- Alina Mikhailus, SPC RAS
- Anna Moreva, SPC RAS
- Anna Motienko, SPC RAS
- Irina Podnozova, SPC RAS
- Pavel Shabalin, ASAU
- Alexandr Smerchansky, SPC RAS

Conference at a glance

Tuesday, June 3, 2025		
08:30-09:00	On-line Registration	
09:00-12:30	Oral Session 1: Digital Technologies, Aquaculture and Bioinformatics https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Oksana Ogij and Roman Meshcheryakov	Online Oral Session 2: Organic Production and Sustainable Agriculture https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Valentina Kundius and Olga Cherepanova
12:30-13:00	Lunch break	
13:00-13:30	Opening Ceremony https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Vladimir Pleshakov and Andrey Ronzhin	
13:30-15:00	Plenary Session 1 https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Chair: Valentina Kundius and Vladimir Surovtsev	
15:00-15:15	On-line Joint Photography of Conference Participants https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09	
16:00-18:00	Dinner	
Wednesday, June 4, 2025		
09:00-12:30	Oral Session 3: Biologization of Animal Husbandry https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Roman Nekrasov and Georgy Laptev	Online Oral Session 4: Mathematical Support and Remote Monitoring https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Boris Sokolov and Alexey Stepanov
12:30-13:00	Lunch break	
13:00-15:00	Plenary Session 2 https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Chair: Nadezhda Bogolyubova and Georgy Laptev	
Thursday, June 5, 2025		
09:00-12:30	Oral Session 5: Biologization of Plant Growing https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Viktor Lemiasheuski and Liudmila Sokolova	Online Oral Session 6: Application of Ground and Air Robots https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Cochairs: Andrey Ronzhin and Mikhail Tatur
12:30-13:00	Lunch break	
13:00-15:00	Plenary Session 3 https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Chair: Kirill Golokhvast and Igor Smirnov	
15:00-15:30	Closing Ceremony https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZEFob3ZUNlp4UT09 Chair: Vladimir Pleshakov and Andrey Ronzhin	
Friday, June 6, 2025		
09:00-20:00	Cultural Program	

Conference Programme

Tuesday, June 3, 2025	
08:30-09:00	On-line Registration
09:00-12:30	Oral Session 1: Digital Technologies, Aquaculture and Bioinformatics https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgvZEZob3ZUNlp4UT09 Cochairs: Oksana Ogij, Roman Meshcheryakov

	<i>Vyacheslav Shalamov.</i> Trends and Cases of AI Implementation for Agriculture and Agro-Industry Based on the Company's Requests and Cases
	<i>Olga Prozorovskaya.</i> Competencies of the 21st Century: The Relevance of Digital Knowledge and Skills for a Successful Career in the Agricultural Sector
	<i>Vasily Lyubimtsev, Svetlana Sladkova, Sergey Kholodkevich, Andrey Ponomarev, and Maria Medyankina.</i> Early Detection of Dangerous Toxicity of Biologically Treated Wastewater Using an Electronic System for Continuous Analysis of Cardioactivity of Crayfish
	<i>Nikita Kochetkov, Victoria Gaffarova, Vasily Lyubimtsev, Svetlana Sladkova, and Sergey Kholodkevich.</i> Digital Analysis of Histological Images for the Purpose of Quantitative Characterization of Goblet-Shaped Intestinal Cells of Sterlet (<i>Acipenser Ruthenus</i>) to Assess the State of the Digestive Tract
	<i>Elchin Khalilov, Zang Min, Andrey Lazukin, Anton Saveliev, Zengling Ma, Farid Khalilov, Min Wang.</i> Aqua-Aero Robotic System – AARS for Hyperspectral Monitoring of Pollution of Water Bodies and Their Purification from Cyanobacteria

	Group 2A, the dominant bacterial species in the organic eco-farm Group 1A were <i>Bacteroides fragilis</i> ($55.1 \pm 3.92\%$) and <i>Fusobacterium necrophorum</i> ($28.8 \pm 2.63\%$). The use of bioinformatic techniques demonstrated that the endometrial microbiome of clinically healthy cows kept in eco-farm conditions (Group 1A) was enriched in bacteriocin genes compared to other studied animal Groups 2A, 2B and 2C. Thus, the standards of feeding and cattle husbandry adopted to eco-farm conditions imply a different composition and functionality of the cattle endometrial microbiome compared to the more common industrial approaches.
 	Elena Yildirim, Valentina Filippova, Larisa Ilina, and Kseniya Sokolova, Molecular Genetics and Microbiomics Laboratory, BIOTROF+ Ltd, Pushkin; Federal State Budgetary Educational Institution of Higher Education "St. Petersburg State Agrarian University", Pushkin, St. Petersburg, Russia. Vitaliy Morozov, Federal State Budgetary Educational Institution of Higher Education "St. Petersburg State Agrarian University", Pushkin, St. Petersburg, Russia. Georgi Laptev, Daria Tiurina, Natalia Novikova, Ekaterina Ponomareva, Vasilii Zaikin, and Alesya Savicheva, Molecular Genetics and Microbiomics Laboratory, BIOTROF+ Ltd, Pushkin, St. Petersburg, Russia. Elena Korochkina, Federal State Budgetary Educational Institution of Higher Education "St. Petersburg State University of Veterinary Medicine", St. Petersburg, Russia. Darren Griffin, School of Natural Sciences, University of Kent, Canterbury, Kent, UK; Animal Genomics and Bioresource Research Unit (AGB Research Unit), Faculty of Science, Kasetsart University, Chatuchak, Bangkok, Thailand. Michael Romanov, Federal State Budgetary Educational Institution of Higher Education "St. Petersburg State Agrarian University", Pushkin, St. Petersburg; L.K. Ernst Federal Research Center for Animal Husbandry, Dubrovitsy, Podolsk, Moscow Oblast, Russia; School of Natural Sciences, University of Kent, Canterbury, Kent, UK; Animal Genomics and Bioresource Research Unit (AGB Research Unit), Faculty of Science, Kasetsart University, Chatuchak, Bangkok, Thailand. Lecture Title: Bioinformatic Analysis of NGS Sequencing Data of the Intestinal Microbiome in Broilers Fed Supplements of Glyphosate, Probiotic Bacterial Strains and Antibiotics. Abstract: Xenobiotics have a negative impact on the composition and function of the intestinal microbiome; this requires measures to correct these disorders. The aim of the study was thus to conduct bioinformatic processing and analysis of NGS sequencing data of the intestinal (caecum) microbiome in broiler chickens, including the analysis of the taxonomic composition and predicted metabolic pathways. Experimental groups of broilers included: Group I fed the basic diet (BD); experimental Group II received BD and glyphosate; experimental Group III fed BD, glyphosate and probiotic bacterial strains; and experimental Group IV received BD along with a combination of glyphosate, antibiotics and probiotic bacterial strains. As a result, a reduction in the live weight of broilers by 4.2% ($p < 0.05$) was observed in Group II (against the background of glyphosate pre-sent in feed). Introduction of a mixture of probiotic bacteria into feed (Group III) resulted in an increased body weight compared to Group II ($p < 0.05$). In Group II, dysbiotic changes in the composition of the caecum microbiome were observed: an 8.7-fold increase in the number of Streptococcus genus members compared to the control Group I ($p < 0.05$). In Group IV, an increase in Bacteroidota by 6.2% was observed compared to Group II ($p < 0.05$). In birds from Group II, compared to Group I, a decline ($p < 0.05$) in

	the intensity of various types of predicted metabolic pathways of the microbiome in the intestinal chyme was established. In particular, those associated with energy, carbohydrate, protein types of metabolism, methanogenesis, synthesis of cofactors, etc. were noted.
	Vyacheslav Shalamov, Statanly, LLC, St. Petersburg, Russia. Lecture Title: Trends and Cases of AI Implementation for Agriculture and Agro-Industry Based on the Company's Requests and Cases. Abstract: In recent years, agro-industrial enterprises, along with the mining and energy sectors, have become leaders in digitalization and the implementation of solutions based on artificial intelligence technologies. Using the example of company requests, the most popular cases of implementing AI for livestock complexes, poultry farms, as well as unique requests, as well as the difficulties, nuances and risks of implementation will be analyzed. Trends and forecasts for the digitalization of agriculture in the coming years will be determined.
	Olga Prozorovskaya, recruitment agency, Moscow region, Pushkin city, Russia. Lecture Title: Competencies of the 21st century: the relevance of digital knowledge and skills for a successful career in the agricultural sector. Abstract: Digital technologies are transforming the agricultural sector, including the use of drones, sensors and precision farming systems to improve production efficiency and reduce costs. It should be emphasized that mastering the skills of working with data, analyzing and interpreting information is becoming critical for future professionals, as decision-making is often based on large amounts of data. Discussion of the role of cloud technologies and Internet of Things (IoT) in agricultural business will also prove relevant, as they provide new opportunities for monitoring and management of agricultural processes. Attention should be paid to the need to develop soft skills such as adaptability and teamwork, which become important in a rapidly changing work environment. Finally, the importance of integrating new technologies into educational programs should not be overlooked so that students can practically apply the acquired knowledge and skills, which in turn will contribute to their successful career in the agricultural sector.
	Vasily Lyubimtsev and Sergey Kholodkevich, St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS), St. Petersburg, Russia. Svetlana Sladkova, St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS); St. Petersburg University, St. Petersburg, Russia. Andrey Ponomarev and Maria Medyankina, Federal State Budget Educational Institution of Higher Education "K.G. Razumovsky Moscow State University of Technologies and Management (the First Cossack University)", Moscow, Russia. Lecture Title: Early Detection of Dangerous Toxicity of Biologically Treated Wastewater Using an Electronic System for Continuous Analysis of Cardioactivity of Crayfish. Abstract: Using the example of biologically treated wastewater from the Southwestern Sewage Treatment Plants in St. Petersburg, a long-term (30-day) study of the variability of characteristics (markers) of cardioactivity in a group of freshwater crayfish of the species <i>Pontastacus leptodactylus</i>, used as bioindicators of the quality of biological wastewater treatment, was conducted. When comparing the values of heart rate (HR) in cancers at rest (HRSp), in a state of spontaneous nocturnal activity (HRN) and in a state of maximum stress caused by the so-called "handling" (HRsS) in the same representative group of cancers before and after prolonged exposure to OSV, it was confirmed that a good functional condition of the crayfish, necessary for their functioning as bioindicators of changes in the quality of biological purification.

Format of the Conference

The conference is held in a hybrid format: on site of Altai State Agricultural University (ASAU, 98 Krasnoarmeysky Ave., Barnaul, Russia) and in the format of videoconference. A single link to the video conference for the opening ceremony, plenary sessions, oral sessions, closing ceremony for participants and listeners: <https://us06web.zoom.us/j/87926743169?pwd=Y1RWWGtua1JtWEgyZlZob3ZUNlp4U>
T09: connection to Oral sessions is carried out in the Halls in accordance with the names of the sessions.

The time of the videoconference is indicated in the time zone of St. Petersburg/Moscow (UTC + 3): <https://www.worldtimebuddy.com/utc-to-russia-moscow/>. The time in Barnaul is **4 hours ahead** of the time in Moscow.
